# Client PORTFOLIO BOOKLET

Highlighting My Success Stories

# Ilayda Aydemir - GTM Engineer | Code-Driven Growth Systems That Deliver Pipeline

I'm not just an outbound strategist — I'm a GTM Engineer who builds systems, custom GTM engines that scale.

With a Master's in Innovation & Marketing and a background in both B2B and B2C growth, I've evolved from running campaigns to engineering automated pipelines.

I use tools like Clay, Make.com, N8n, HubSpot, and JSON templating with Jinja to drive real, trackable results — from lead enrichment to messaging personalization, TAM analysis to CRM syncing, and everything in between.

- One of 6 women sponsored by clay into Clay Bootcamp
- Clay-Club event organizator, Italy.
- Founder, Youth Bridge Milano (EU-funded digital marketing projects for youth education).

# Client Testimonials

Why I Stand Out

I've seen the broken parts of GTM from both agency and in-house sides — and I've built systems that fix them.

You don't just get another outbound campaign manager. You get a systems thinker who speaks both automation and customer. I thrive where GTM is used to its full potential — not just as a tool, but as an engine.

**Danny Kim** · 1st
Founder @ Visora | B2B Growth Partner & Advisory | AI-Augmented Business Development, Intent Signals & Multi-Channel Touchpoints
April 18, 2025, Danny was Ilayda's client

Worked with Ilayda on building out an updated clay table for Visora.co in driving 30%+ connect rates in 14 days impacting pipeline velocity. What I liked most was she went above and beyond the initial ask and helped with overall business strategy, not just development.

**Andrea Tonetti** · 1st
Building...
July 7, 2024, Andrea managed Ilayda directly

Ilayda excels at demand generation, optimizing CRM, and boosting campaign success. A strategic and collaborative-driven leader.

# What Clients Said About Ilayda Aydemir's GTM Systems

"Her sequences didn't just perform well — they taught us how to think differently about outbound. The system was both elegant and effective."
— Founder, Visora (GTM Consulting) GTM ENGINED BY

"Never seen outbound like Ilayda's. A total GTM engine. Emails shifted tone, scraped hiring signals, and if none were found, instantly adapted to real pain points—all from a single enrichment. Scary accurate. Felt like they were written by us, for our ICP."
— CEO, OttFinance- SaaS) GTM ENGINED BY

"We considered five agencies, but Ilayda was the only one who could extract the exact data we needed. "
— Founder, GlossGenius (AI Booking SaaS)

"Ilayda turned a chaotic API integration into a real-time workflow. Her system gave us full visibility into Preqin data "
— Product Lead, Robin AI (LegalTech)

"The team generated nearly 200 qualified leads in just 6 months. They deeply understood our market and helped us break through."
— Managing Partner, Tatton Investment Management (Financial Services)

"We've partnered with this team for over 2 years. Despite what people say about cold email, their strategy consistently brought in high-value meetings."
— Head of Growth, AdLib (AdTech SaaS)

"They quickly got up to speed on our product and consistently delivered 5–10 SQLs per week. Felt like having an in-house outbound engine."
— CMO, Riskwell (RegTech SaaS)

# Project Highlights

My portfolio covers freelance work as well as projects I contributed to during my agency roles.

## Engineered for Volume: High-Throughput Campaigns

Outbound systems designed to generate high-intent demos and SQLs at scale.

- Robin AI (LegalTech)

20+ demos/month with legal & ops leads

Clay-to-HubSpot flow + seniority-level segmentation + persona messaging

- AdLib (AdTech SaaS)

126 demos in 4 months → 65 closed deals

ICP fit + AI-personalized outbound with auto-enriched firmographic data

- Tatton Investment (Financial Services)

~200 leads sourced → 130+ appointments in 6 months

Wealth manager targeting + compliant sequencing + inbox warm-up logic

- Riskwell (RegTech SaaS)
- 5–10 SQLs/week in a regulated space
- Messaging logic calibrated for legal sensitivity + weekly auto-enrichment

- Tempo Labs (Productivity SaaS)

9.4% reply rate via HR/Ops targeting

Sequence testing (job title + department + pain-first logic)

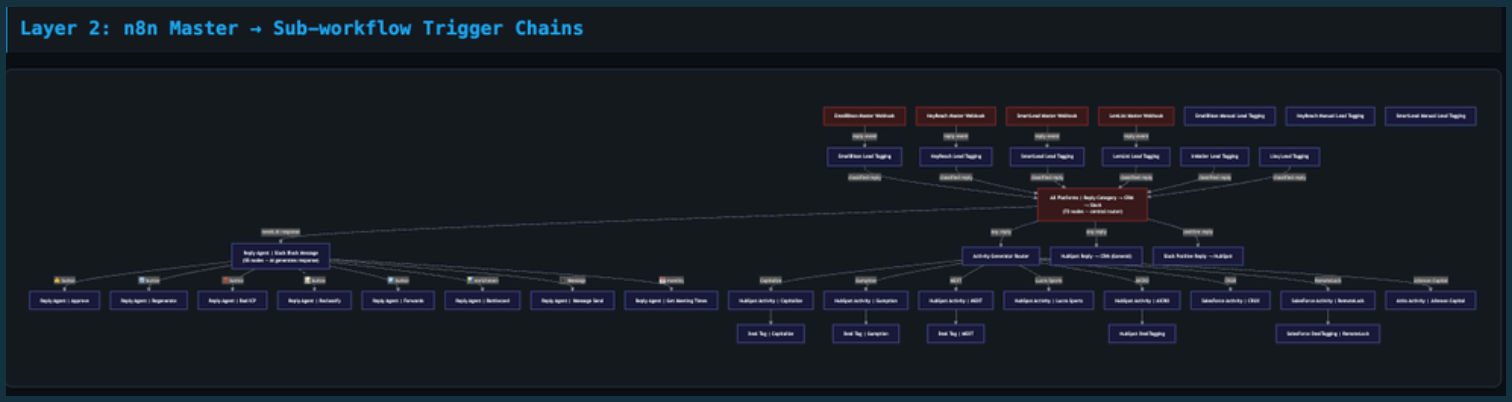
# AI Agents



## Market Expansion Systems

Outbound engines built to test new verticals, geos, and audience segments.

- GlossGenius (Beauty SaaS)

New verticals unlocked → early conversions

Clay-built table: team size verification + Yelp/Google review cross-check + Instagram scraping

- Nestlé Thailand & Malaysia (FMCG)

Pilot conversations with digital innovation teams

Enterprise-style outbound to regional leadership + signal-based list building

- Awell (HealthTech)

20 demos in 2 months → several pilots

Use-case driven segmentation + healthcare compliance logic in messaging

- Ottit (Ecomm Finance SaaS)

30+ meetings booked with DTC operators

Hiring signal detection + "credibility-first" fallback sequences

- Trayser (Mobility Tech)

Landed EU resellers and retail partners

Geo-based scraping + partner/distributor title mapping

- Drip (Ecomm Martech SaaS)

40+ demos in 2 months

Feature-led campaigns built on DTC founder targeting

## Engineering Outreach for Tech & Services

Outbound mechanics built for developers, technical buyers, and execs.

- Digital Web Help (Web Dev)

10+ sites sold

Outdated website detection + audit-first cold messaging

- Version2 (Software Dev)

30+ meetings with product/engineering leads

Clay logic for CTO scraping + product stack pattern recognition

- Massive Insights (Market Research)

F500 decision-maker access

Enterprise insight-first outbound targeting insights and strategy roles

- Linq (Networking SaaS)

50+ SMB demos

Verticalized segmentation + small business intent scoring

- Aragon (Tech Consulting)

20+ SQLs/month

C-level message mapping with use-case personalization

## Message Engineering & Conversion Optimization

Where logic meets structure: conditional sequences, scoring, and variant testing.

- Visora (GTM Consulting)

2x lead volume → +35% conversion

Sequence redesign + reply analysis → message variant A/B rollout

- Gravitee (API SaaS)

50+ dev demos

Tech stack enrichment via Wappalyzer + developer persona mapping

- Datacrunch (Data Analytics)

15+ qualified strategy sessions

Pain-point alignment + custom fields for data type, team structure, analytics maturity

- Aurum (Financial Services)

100+ wealth advisor leads

High-net-worth segmentation + multi-touch nurturing logic

## Creative & Brand-Focused Outbound Engines

Outreach infrastructure tailored for CMOs, agencies, and visual-first brands.

- Because (Branding Agency)

Booked DTC CMOs through brand-first sequencing

Portfolio-to-persona messaging + aesthetic-led subject line testing

- SilentStars (Branding Studio)

Inbound referrals + cold conversion

Outreach synced with case study triggers and website visual signals

- Curated Media (Publishing)

Partnerships with content leads

Brand-first targeting with narrative sequencing

- Left Field (Marketing Agency)

Strategy calls with funded startups

ICP = startup marketing execs + funding signal + website scoring

Strategy calls with funded startups

ICP = startup marketing execs + funding signal + website scoring

# Conclusion

As a GTM expert, I've supported **50+ companies across SaaS, fintech, ecomm, creative, and enterprise sectors** by building and executing outbound campaigns that generate SQLs, open new markets, and fuel pipeline.

My work focuses on personalized **codebound**, ICP-based list- strategy building, and humanized AI-powered enrichment workflows.

I blend deep technical knowledge with hands-on go-to-market experience. I don't just map strategies—I build the actual systems behind them. From Clay-powered scrapers and JSON logic, I turn complex GTM problems into structured, high-impact solutions.

I know how to architect systems that are not only technically sound—but revenue-driven.

## SUMMARY

**•Principal GTM Systems Engineer • Digital Delivery • Workflow Automation • Custom build AI Agents/Apps • Low/No-Code • Inbound/Outbound Automation • CRM/ERP Integration • Data Enrichment • Own Strategy → Technical Execution**

## EXPERIENCE

**03.2025- Principal GTM Systems Engineer — Digital Delivery & Automation**
**Present**
**TargetCode.io (Remote, Worldwide)**

- Creates **inbound & outbound automation engines** for **enrichment** , **segmentation** , **personalization** , **lead generation** , and real-time system updates. Clay, n8n, LLM platform executions .
- Designs and delivers **automation-first workflows** , **CRM/ERP integrations** , and **multi-system data flows** for **B2B/B2C platforms** .
- Builds **custom scrapers** , **AI agents** , and **custom apps** to capture ICP and intent signals when standard data falls short.
- Builds **internal apps** , **workflow extensions** , and **reporting layers** using **low-code/no-code** and **API frameworks** to support operations and analytics.
- Implements **end-to-end process automations** across marketing, sales, and operations to remove **low-value manual work** .
- Manages **API/webhook integrations** , **QA cycles** , **staging environments** , and **deployments** for reliable digital delivery.
- Works with clients and technical teams using **Agile practices** to plan, prioritize, and release features predictably.
- Translates diverse client **business requirements** into **multi-market** , **B2B/B2C-aligned technical solutions.**

**10.2024-0 Lead GTM Engineer**
**2.2025 SalesCaptain (Remote)**

- **Strategic Planning and Execution:** Define and implement GTM strategies, and support workflow, automation, and integration delivery across GTM and CRM teams.
- **JSON Prompting and AI Solutions:** Develop JSON-based prompts and workflows for AI-powered solutions, enabling dynamic, context-aware customer interactions and enhancing personalization through AI enrichment and predictive analytics.
- **Integration and Automation:** Build and optimize HubSpot-Salesforce integrations for seamless lead and customer management. Design automated workflows for lead scoring, nurturing, and campaign execution using tools like Make, n8n.
- **Performance Metrics and Optimization:** Monitor GTM performance using dashboards in HubSpot and Salesforce, track ROI, and refine strategies through data-driven insights.
- **Account Management:** As the main technical contact, ensure satisfaction with tailored solutions and check-ins.

**01.2024-1 Director of Demand Generation**
**0.2024 Voxen** (Italy)

- Drive growth through targeted databases, HubSpot CRM optimization, and AI-powered marketing automation using tools like Clay, Make.com, and Instantly AI.
- Manage inbound/outbound channels and key relationships, boosting reach by 20% and engagement by 40%.
- Run B2B campaigns with A/B testing, raising success rates by 10%, and collaborate on content/web to increase conversions by 25%.
- Maintain sales-marketing feedback loops and lead thought leadership seminars.

**05.2020-0 Digital Marketing Strategy Consultant**
**1.2024 Forte Leverage Digital Marketing (Remote, Worldwide)**

- **Agency Collaboration and Consulting:** Partnered with B2B digital marketing, 360° digital, and e-commerce marketing agencies, working with clients ranging from startups to global firms. Consulted on omnichannel strategies and CRM (HubSpot & Salesforce) optimizations.
- **Consultative Selling and Account Management:** Led consultative selling for B2B projects, achieving a 66.6% conversion rate. Managed accounts, bridging clients and operations.
- **Creative Strategy and Social Media** : Contributed to creative strategies, including ad creation and PPC management, ensuring clear messaging, strong ROAS, and market growth for B2B clients.
- **E-commerce Campaign Optimization:** In a specific project, optimized a B2C campaign, boosting ROAS by 90% and reducing CPA by 39.8%. In another, contributed to SEO audits that boosted organic traffic by 30%.

**11.2020-0 CRM Optimization Manager with Claims Adjuster Oversight**
**7.2023 New York Furniture Outlets (San Diego, USA)**

- Optimized Odoo for sales, marketing, customer service, and operations.
- Managed $1.4M in annual damage claims, boosting cash flow by 30% through data-driven optimization.
- Improved client communication and reduced chargebacks by 50% with Odoo CRM/ERP enhancements.
- Increased annual cash flow by $168K and cut partial refunds by 30% through optimized solutions.
